NOTICE TO PRODUCERS

Quota Increase

Due to continuing increased demand and growth, SaskMilk is implementing a **quota increase of 1% effective May 1, 2015**.

Once again, we would like to recognize that producers have done an excellent job of increasing production in response to the significant increases over the past two years. Saskatchewan is achieving record production and maintaining high BF levels.

Both the province and the Western Milk Pool continue to need additional milk production to meet our commitments to the system.

It continues to be crucial that each and every producer do everything possible to avoid falling to a level of under-production that could cause the loss of credits.

If you have any questions, please do not hesitate to contact Directors of the Board or the SaskMilk office. Director contact information is available in the monthly newsletter and on the website at <http://www.saskmilk.ca>.
