## INCENTIVE DAY NOTICE

SaskMilk will be issuing fall incentive days. This notice is coming out early in order to encourage producers to plan for fall milk production and to assist producers in managing their production needs in an efficient manner.

Incentive days will be issued for the following months:

<b>August</b>	<b>2 days</b>
<b>September</b>	<b>2 days</b>
<b>October</b>	<b>1 day</b>
<b>November</b>	<b>1 day</b>

**Please note if Saskatchewan production trends and/or Canadian Requirements change, the issuance of incentive days may be reduced or increased.**

If you have any questions regarding your quota management, please do not hesitate to contact Bev Solie at 306-721-9488.

## Spring Producer Meetings

The Spring Producer meetings will be held on the following dates at the following locations:

*Monday, March 24<sup>th</sup>  
F.O.E. Eagles Building  
1910 S. Service Road W.  
Swift Current, SK*

*Tuesday, March 25<sup>th</sup>  
Brian King Centre  
202 – 8<sup>th</sup> Avenue N.  
Warman, SK*

*Wednesday, March 26<sup>th</sup>  
Royal Canadian Legion  
197 Company Avenue S.  
Fort Qu'Appelle, SK*

Watch for further details and the agenda to be sent out at a later date!

## **SaskMilk Producer Ambassador Program**

*Do you believe in your industry? Want to share your enthusiasm with others? Then please consider talking to me about the SaskMilk Producer Ambassador Program!*

What is this, you might ask? This is an exciting program that we will be developing over the next year where we would like to help producers become spokespeople for the Saskatchewan dairy industry! Don't worry, we aren't going to just throw you 'in' unprepared! We will be taking the time to talk to you, get you whatever training you need to feel comfortable talking to the public, to the media, or to anyone else that needs some help understanding how great our industry is.

In the current environment, where supply management is being questioned, trade deals are coming down the road, and many consumers don't know or understand what producers do and how the system works, we need to be available and accessible as CHAMPIONS of our industry – and nobody is a better champion than you, the producer!

This will not require a big time commitment, honestly – we just want to give you the tools you need to be an ambassador, and build a network of producers that we can communicate with and call on if the need arises.

Please contact me at #306-721-9482 or [Joy.Smith@saskmilk.ca](mailto:Joy.Smith@saskmilk.ca) to get more information – no commitment, let's just chat and see if it might interest you! Thanks in advance everyone!

*-Joy Smith, SaskMilk Manager of Policy & Communications*

## **Producer Participation Wanted**

A graduate student at the U of S, Eduardo Pina, is conducting a research project to better understand the innovation process among dairy farms in Aguascalientes, Mexico and Saskatchewan, Canada.

He is working with dairy producers and other industry stakeholders to develop research propositions on how producers become aware of new technologies, how they decide which technology to invest in or implement and how they ensure successful adoption of new technologies or processes. Of particular interest are innovations that improve productivity or efficiency and innovations that improve quality.

He is looking for 15-20 producers who would be willing to participate in an interview. The interview would take approximately 60 minutes, you would be compensated for your time and he would come to your farm.

If you would be interested in participating please contact:

Dr. Eric T. Micheels  
306-966-8411  
[Eric.micheels@usask.ca](mailto:Eric.micheels@usask.ca)

Agriculture in the Classroom Saskatchewan (AITC-SK) is thrilled to invite your organization to participate in this exciting program!

**March 3<sup>rd</sup> – March 9<sup>th</sup>, 2014**

*Canadian Agriculture Literacy Week is an initiative of Agriculture in the Classroom across Canada to raise student awareness about Canadian agriculture by providing positive and realistic messages from the industry and producers.*

*A special thanks to FCC for sponsoring this program in its 3<sup>rd</sup> year!*

**AITC-SK would like to partner with your organization to connect students with local producers and industry representatives to help put a face on the food we eat! Personal stories will be shared and curious questions will be answered.**

**Participating Organizations Role:**

1. Identify producers or agriculture industry representatives who are passionate about the agriculture industry. Volunteers must be comfortable relating, speaking, and reading to students as well as sharing stories about their farming operation and answering students' questions. We are looking for volunteers who have a positive attitude about the agriculture industry and who will convey a positive message to the students about their own experiences.
2. Send the contact information for the producers or industry reps to Karen Enns at [karen@aitc.sk.ca](mailto:karen@aitc.sk.ca) or (306) 933-6158. Provide name, e-mail, phone, town/city, and agriculture connection prior to **January 31, 2014**.

**AITC's Role:**

1. AITC will work with the producer to confirm the producer's interest and availability as well as discuss ideas to engage the students during the visit.
2. AITC will contact the school administration and provide details about the program. ***The teacher will contact the producer and arrange a date/time for the school visit.***
3. AITC will provide a suitable book for the producer and send it to them in advance of the school visit.
4. AITC will notify participating organization of school visit dates and places.
5. AITC will coordinate related media releases.
6. AITC will provide agriculture resources for the class to keep after the visit.

**Producer's Role:**

1. Spend 45 minute with a grade 3 – 5 classroom reading the storybook provided and sharing personal agriculture stories.
2. Sign the book and donate it to the class.

**Contact Karen Enns at 933-6158 or [karen@aitc.sk.ca](mailto:karen@aitc.sk.ca) to get involved by January 31, 2014.**

**Agriculture in the Classroom**  
Connecting Kids and Agriculture

## Western Canadian Dairy Seminar March 11 - 14, 2014 Sheraton Red Deer, Red Deer AB

### *Strategies to Optimize Performance*

#### Tuesday, March 11<sup>th</sup>

##### 10:00 a.m. – 4:00 p.m. Pre-Conference Tour

This tour will visit three local dairy farms with the focus on progressive, innovative dairy managers.

##### 1:30 p.m. – 4:30 p.m. Pre-Conference Symposium for Nutritionists: "Nutritional management of the dairy replacement heifer from birth to calving".

Facilitator: Robert Corbett, Dairy Health Consultation (Max 50)

##### 1:30 p.m. – 4:30 p.m. Workshop for Producers:

"Mastitis pathogens and prevention",

Facilitators: Herman Barkema, University of Calgary; Jean-Philippe Roy, University of Montréal; Ruth Zadoks, University of Glasgow (Max 30)

6:30 p.m. - 9:00 p.m. Registration

8:00 p.m. - 10:00 p.m. Opening Reception

#### Wednesday, March 12<sup>th</sup>

##### Morning Plenary Session

##### **Session I. Efficiency from Cow to Farm**

8:50 *How high feed efficiency reduces the environmental impact of the dairy* – Frank Mitloehner, University of California-Davis

9:30 *Feeding and breeding for a more efficient cow* – Mike Vandehaar, Michigan State University

10:10 *Nutrition Break*

10:40 *Can genomics be used to improve feed efficiency?* – Diane Spurlock, Iowa State University

11:20 *Strategies to improve economic efficiency of the dairy* – Victor Cabrera, University of Wisconsin

12:00 *Panel (all speakers)*

12:20 **Lunch**

##### Afternoon Concurrent Sessions

##### **Session II. Dairy Herd Health**

1:50 *Biosecurity on the dairy farm* – Dick Sibley, West Ridge Veterinary Practice, UK

2:30 *Lameness, hoof and leg issues in dairy cows* – Ernest Hovingh, Pennsylvania State University

3:10 *Nutrition Break*

3:40 *Understanding the sources, transmission routes, and prognoses for mastitis pathogens* – Ruth Zadoks, University of Glasgow

4:20 *How to decrease the use of antibiotics in udder health management* - Jean-Philippe Roy, University of Montréal

5:00 **Panel (all speakers)**

##### **Session III. The Pre-Weaned Calf**

1:50 *Cow factors that influence colostrum quality* – Fiona Maunsell, University of Florida

2:30 *Effects of maternal nutrition on calf health and growth* – Jon Schoonmaker, Purdue University

3:10 *Nutrition Break*

3:40 *Colostrum management and factors related to poor calf immunity* – Lorraine Doepel, University of Calgary

4:20 *Effective forage and starter feeding strategies for preweaned calves* – Alex Bach, Institute for Research and Technology in Agrifood (IRTA), Spain

5:00 **Panel (all speakers)**

**Evening Banquet:** Atomic Improv is a two man Improv show that has been wowing audiences all over the world with their high energy, fast paced and funny shows.

## Thursday, March 13<sup>th</sup>

### Morning Plenary Session

#### **Session IV. Nutrition to Optimize Performance and Economic Returns**

- 8:30 *Reducing total feed costs while optimizing productivity* - Barry Robinson, Great Northern Livestock Consulting Ltd.
- 9:10 *Precision feeding to increase feed efficiency* – Alex Bach, IRTA Spain
- 9:50 *Nutrition Break*
- 10:20 *Silage inoculants – are they worth the money?* - Tim McAllister, Agriculture & Agri-Food Canada
- 11:00 *Reducing phosphorus levels in dairy cow diets* - Conrad Ferris, AFBI (Agri-Food & Biosciences Institute), Northern Ireland
- 11:40 Panel (all speakers)
- 12:00 Lunch

### Afternoon Concurrent Sessions

#### **Session V. Breeding and Reproduction**

- 1:30 *Crossbreeding in dairy cattle: pros and cons* – Conrad Ferris, AFBI, Northern Ireland
- 2:10 *Genetic selection of cattle for improved health and immunity* – Bonnie Mallard, University of Guelph
- 2:50 *Nutrition break*
- 3:20 *Reproductive management with limited hormonal intervention* - Jeff Stevenson, Kansas State University
- 4:00 *An interventionist approach to reproductive management* – Stephen LeBlanc, University of Guelph
- 4:40 Panel (all speakers)

#### **Session VI. The People Side of Dairying**

- 1:30 *Worker training and education to improve cattle welfare* – Franklyn Garry, Colorado State University
- 2:10 *Enhancing employee supervision skills* – Chuck Schwartau, University of Minnesota
- 2:50 *Nutrition Break*
- 3:20 *Using SOPs to improve productivity* – Fiona Maunsell, University of Florida
- 4:00 *An advisory team approach to your farm management* – Lisa Holden, Pennsylvania State University
- 4:40 Panel (all speakers)
- 5:00 Reception (to be held after Sessions)
- 6:30 Student Research Presentations

## Friday, March 14<sup>th</sup>

### Morning Plenary Session

#### **Session VII. Disease Issues and Management**

- 8:30 *Vaccinating dry cows and calves: with what, when and is it effective at protecting the calf?* - Amelia Woolums, University of Georgia
- 9:10 *Why cows die on dairies* - Franklyn Garry, Colorado State University
- 9:50 *Nutrition Break*
- 10:20 *High risk cows in high risk places* – Dick Sibley, West Ridge Veterinary Practice, UK
- 11:00 *Emerging diseases that may impact your bottom line* – Dave Kelton, University of Guelph
- 11:40 Panel (all speakers)
- 12:00 Closing

# QUOTA EXCHANGE

The market-clearing price established for the February 2014 Quota Exchange was **\$34,500.00**.

The next Quota Exchange will be held on **March 15, 2014**. All offers to sell and bids to purchase quota through the Quota Exchange must be received at the SaskMilk office by midnight, **March 6, 2014**. SaskMilk recommends that offers and bids be submitted well in advance of the deadline date to ensure adequate time for corrections, if necessary.

When making bids on the Quota Exchange, the price on offers to sell quota is the minimum price that the producer is prepared to accept for that quota. Only if the market-clearing price is equal to or greater than the producer's minimum price will that producer qualify for participation in the Exchange. Conversely, the price on offers to purchase quota is the maximum price that the producer is prepared to pay for that quota. Only if the market-clearing price is equal to or less than the producer's maximum price will that producer qualify for participation in the Exchange. The clearing price is set at the price where the smallest difference exists between the accumulated volume offered for sale and the accumulated volume bid to purchase.

The results of the Quota Exchange are outlined in the following Table.

## FEBRUARY 2014 QUOTA EXCHANGE RESULTS SUMMARY

<b>Market Clearing Price per kilogram of butterfat</b>	<b>\$ 34,500.00</b>
<b>Daily Kilograms offered to Purchase</b>	<b>32.00</b>
<b>Kilograms offered to Sell</b>	<b>60.14</b>
<b>Kilograms sold</b>	<b>12.00</b>
<b>Number of Producers</b>	
- offered to purchase	<b>4</b>
- purchased quota	<b>2</b>
- offered to sell	<b>7</b>
- sold quota	<b>5</b>

## FEBRUARY 2014 QUOTA EXCHANGE CLEARING PRICE RESULTS

Price (\$/daily kg b.f.)	No. of Sellers	Cumulative Sellers	Daily Kgs b.f. offered for sale	Cumulative sales	Cumulative Sales less Cumulative purchases	Cumulative purchases	Daily Kgs b.f. offered to purchase	Cumulative Buyers	No. of buyers

## WEIGHTED AVERAGE COMPONENT TESTS & PRICES January, 2014

Components	Average Test	Price per kilogram Class 1 to 5
Butterfat	4.0086	11.321135
Protein	3.3832	8.321118
Other Solids	5.7065	1.233344

Based on the average component tests for the province, the average price received was **\$80.5723** per hectolitre. **The average butterfat price received per kilogram was \$19.97**

### SASKATCHEWAN MILK POOL RESULTS January 2014

Milk Sale Revenue	\$ 14,764,134.64
Western Milk Pool	\$ 1,086,054.64
Plant of Last Resort Service	\$ (57,296.14)
<b>Total Pool Value</b>	<b>\$ 15,792,893.14</b>

In January, Saskatchewan had a monthly CDC allocation of **769,397 kilograms** of butterfat. In the month of January, Saskatchewan production was **20,454** of butterfat **over** and cumulatively **under** by **-49,676 kilograms** of butterfat. On a percentage basis, Saskatchewan is **-0.55%** within our CDC allocation flexibility limits based on the Continuous Quota model. The -1.50% lower flexibility limit is in effect.

- (1) Monthly Production in Saskatchewan
- (2) Total Monthly Quota = Class 1 sales + Monthly MSQ + Carry Forward
- (3) Difference between the monthly production (1) and the total monthly quota (2)
- (4) The Lower Flexibility Limit is -1.5% of Rolling 12 Month Total Quota (9)
- (5) The Upper Flexibility Limit is 1.0% of Rolling 12 Month Total Quota (9)
- (6) Previous Month Cumulative Over or (Under) Production + Current Monthly Over or (Under) Production (capped at lower or upper limit if applicable)
- (7) Equal to Column (6) expressed as a percentage basis within the flexibility limits
- (8) Over Quota or (Lost production opportunity) outside of flexibility limits
- (9) Total Monthly CDC Quota Allocation for the previous 12 months

## SCC LIMIT NOW 400,000

Effective January 1, 2013, the SCC limit has changed to 400,000. Penalties and violations will be applied based on the new limit.

The following graphs provide producers with an overview of the Provincial Somatic Cell Count weighted average on a monthly basis as well as a breakdown of the % of producers in each SCC level for the month of January 2014.

If you have any questions or comments you can contact: Deb Haupstein at 306-721-9486.

## INHIBITOR TEST STATIONS

SaskMilk has established a number of inhibitor test stations around the province. Producers needing to check their bulk tanks for inhibitors can take a sample to the test station closest to their location.

Charm test strips are available to test for:

**Beta-Lactams**- the Charm 3 SL3 Beta Lactam test strip tests for amoxicillin, ampicillin, ceftiofur, cephalosporin, cloxacillin, and penicillin G

**Tetracyclines**- the Charm Tetracycline test strip tests for chlortetracycline, oxytetracycline and tetracycline.

**Sulfas**- the Charm Sulfa test strip tests for sulfacetamide, sulfachlorpyridazine, sulfadiazine, sulfadimethoxine, sulfadoxine, sulfaethoxyypyridazine, sulfamerazine, sulfamethazine, sulfamethizole, sulfamethoxazole, sulfamethoxyypyridazine, sulfapyridine, sulfaquinolaxine, sulfathiazole, and sulfisoxazole.

Test stations are located at the following locations:

1. Swift Current, SK - Agrifoods truck bay - 675 Cheadle Street West  
Office 306-773-1991 or Rodger Ruf 306-741-3261
2. Harris, SK - Cairnside Farm – Wes Cairns 306-665-4807
3. Star City, SK - Star City Colony - Reuben Tschetter 306-921-9381
4. Grenfell, SK - Jim Ross 306-697-2232
5. Yorkton, SK - Ford Dairy Farms Inc. - Bud and Margaret Ford 306-782-7240
6. Saskatoon, SK – Agrifoods Truck Bay - east of the Saputo plant receiving bay  
lead hand - Jim or Clint 306-664-0202 after hours: 306-668-8135

Charm tests strips and Charm testers are now available for purchase through SaskMilk. Agrifoods is now carrying SNAP test kits for tetracyclines as well as beta lactams.

For further information you can contact: Deb Haupstein 306-721-9486

### If You Can't Ship It - Test It!

**BSE surveillance is still important and every animal tested makes a difference.**

**Support your cattle industry by having your 4-D (dead, diseased, dying or downer) cattle tested for BSE.**

**For more information, call the Canadian Food Inspection Agency at 1-877-727-5273.**

# Code of Practice

## 1.2 Facilities for Special Needs

Special needs facilities are an option for grouping animals to provide for the special needs of calving, transition or sick/infirm cows (20). Special needs facilities should be designed to minimize stress. Appropriate stocking density and design are needed within special needs facilities to minimize competition for limited resources (e.g., feed bunks, stalls). Cows like to engage in the same activity at the same time so overstocking is a source of frustration if this need cannot be met (8).

### **REQUIREMENTS**

***Special needs facilities must provide comfort, insulation, warmth, dryness and traction. Bare concrete is not acceptable as a resting surface.***

#### **1.2.2 Post-Calving (Fresh Cows)**

Most welfare problems of dairy cows arise during the post-calving period. Fresh cows need special care and a less competitive environment, which may be best achieved if managed as a separate group for free stall barns. Physical barriers, including head locks and feed stalls, can help reduce competition at the feed bunk and increase feeding time, particularly for subordinate cows (10).

### **RECOMMENDED BEST PRACTICES**

- ensure appropriate stocking densities are maintained (i.e., one cow per stall)
- minimize competition at the feed bunk (e.g., use physical barriers at the feed bunk (10), or provide at least 30in (76cm) of linear bunk space per cow (8))
- provide softer, non-slip flooring, such as soft rubber or straw pack
- minimize competition at the water troughs.

## QUOTA LISTING or CLASSIFIED AD SERVICE

SaskMilk offers a free quota listing service as part of its Newsletter. Anyone wishing to sell or purchase quota and/or cows or miscellaneous dairy equipment is welcome to contact the SaskMilk office at (306) 949-6999. All prices and negotiations will be independent of SaskMilk. **Please note that ads will be posted in two issues and will then be removed unless SaskMilk is notified otherwise.**

### Classifieds

- For sale: Bred heifers and lactating heifers (40-60 days in milk). Contact Sand Lake Colony, Steve Kleinsasser, #306-298-2079 ext 406
- For Sale: Combined Timothy Bales. Contact Dierker Enterprises, Mistatim SK, Michael Dierker 306-889-4484
- WANTED 5KG daily quota – please contact Darrell Entz 306-662-3062 ext 107 or 126
