## **Update re: Moratorium on Private Quota Transfers**

The Moratorium on private quota transfers is lifted as of June 2, 2020.

Please be aware that there is an amended Quota Transfer Application Form that must be used for all quota transfers, and a Production License/Facility License Application Form that must be submitted for all new licenses. Applicants will be required to provide a statutory declaration confirming that they are in compliance with the Quota Limits Order. Updated forms will be made available in the coming days.

A reminder that the Board must undertake the appropriate and required due diligence for every quota transfer and license issuance in Saskatchewan, and that in accordance with the Regulations licenses may take up to 90 days to process. The Board strives to complete work in a timely manner.
