UPDATE

Incentive Days Issued for October & November

SaskMilk and the WMP have been closely watching the markets and processing to determine adjustments that need to be made to supply. Fall milk is still needed and it is important that the WMP is able to fill demand. While impacts from the Covid-19 pandemic remain, there has been an increase in demand requiring the WMP to implement incentive days for October and November.

Incentive days will be issued to producers as follows:

OCTOBER 3 days

NOVEMBER 2 days

SaskMilk and the WMP will continue to monitor market conditions and any future incentive days will be issued based on current conditions.

If you have any questions on Incentive Days, please contact Doug Miller at the SaskMilk office (#306-721-9485). If you have any questions regarding your quota management, please contact Bev Solie at the SaskMilk office (#306-721-9488).
