

December 4, 2020

## **UPDATE**

### **Incentive Days Issued for January**

SaskMilk and the Western Milk Pool (WMP) have continued to watch the markets and processing to determine adjustments that need to be made to supply. There continues to be strong demand in requirements and processor orders, therefore the WMP is continuing Incentive Days into January.

Incentive days are issued to producers as follows:

**December 3 days**

**January 2 days**

### **Incentive Days – Fall 2021**

As has been SaskMilk's practice, you will be notified of the anticipated Fall Incentive Days for 2021 as early as is possible. While it is clear that incentive days will be required for fall of 2021 (as with most fall periods when demand is strong) there is additional work needed to try to determine the longer-term impacts of Covid-19 on the marketplace.

The WMP is current working together to assess what the requirements may be for fall of 2021. This assessment will be completed over the coming month, after which an Incentive Days Notice will be sent to you.

If you have any questions on Incentive Days, please contact Doug Miller at the SaskMilk office (#306-721-9485). If you have any questions regarding your quota management, please contact Bev Solie at the SaskMilk office (#306-721-9488).
